

Goat anti-Rabbit IgG Secondary  
Antibody(unconjugated)

#L3011

**Catalog Number:**

L3011-1, L3011-2

**Amount:**

Bulk Order, 1mg (IgG content: 10mg/mL)

**Form of Antibody:**

Goat IgG in phosphate buffered saline (without Mg<sup>2+</sup> and Ca<sup>2+</sup>), pH 7.4, 150mM NaCl.

**Storage/Stability:**

Store at -20°C/1 year

**Immunogen:**

The antiserum was developed in Goat using the Rabbit IgG as the immunogen.

**Purification:**

The antibody is obtained by affinity purified technique, which removes essentially all Goat serum proteins, except the specific antibody for Rabbit IgG.

**Specificity/Sensitivity:**

The antibody conjugate is specific for Rabbit IgG. No cross-reactivity was observed with Rabbit IgA, IgM proteins by ELISA.

**Identification:**

The purity of IgG was  $\geq 95\%$  basing on the SDS-PAGE analysis.

The protein content of IgG was **10mg/ml** tested by Lowry method.
